

PUBLIC TRANSPARENCY REPORT

2023

Loreto Mutua, M.P.S.

Generated 15-12-2023

About this report

PRI reporting is the largest global reporting project on responsible investment. It was developed with investors, for investors.

PRI signatories are required to report publicly on their responsible investment activities each year. In turn, they receive a number of outputs, including a public and private Transparency Report.

The public Transparency Reports, which are produced using signatories' reported information, provide accountability and support signatories to have internal discussions about their practices and to discuss these with their clients, beneficiaries, and other stakeholders.

This public Transparency Report is an export of the signatory's responses to the PRI Reporting Framework during the 2023 reporting period. It includes the signatory's responses to core indicators, as well as responses to plus indicators that the signatory has agreed to make public.

In response to signatory feedback, the PRI has not summarised signatories' responses – the information in this document is presented exactly as it was reported.

For each of the indicators in this document, all options selected by the signatory are presented, including links and qualitative responses. In some indicators, all applicable options are included for additional context.

Responsible investment definitions

Within the PRI Reporting Framework Glossary, we provide definitions for key terms to guide reporting on responsible investment practices in the Reporting Framework. These definitions may differ from those used or proposed by other authorities and regulatory bodies due to evolving industry perspectives and changing legislative landscapes. Users of this report should be aware of these variations, as they may impact interpretations of the information provided.

Data accuracy

This document presents information reported directly by signatories in the 2023 reporting cycle. This information has not been audited by the PRI or any other party acting on its behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented.

The PRI has taken reasonable action to ensure that data submitted by signatories in the reporting tool is reflected in their official PRI reports accurately. However, it is possible that small data inaccuracies and/or gaps remain, and the PRI shall not be responsible or liable for such inaccuracies and gaps.

SENIOR LEADERSHIP STATEMENT

SENIOR LEADERSHIP STATEMENT

Indicator	Type of indicator	Dependent on	Gateway to	Disclosure	Subsection	PRI Principle
SLS 1	CORE	N/A	N/A	PUBLIC	Senior Leadership Statement	GENERAL

Section 1. Our commitment

- Why does your organisation engage in responsible investment?
- What is your organisation's overall approach to responsible investment, and what major responsible investment commitment(s) have you made?

Loreto Mutua has been a signatory of the PRI (Principles for Responsible Investment) since 2015 and responsible investment is important pillar in our business strategy. Dedicated governance, internal resources, policies and ESG risk measurements are hallmarks. Loreto Mutua places sustainable development at the strategic core of the Group with authenticity, honesty, balance and coherence. We will only do what we feel and believe beyond fashion. Having as key points: Prudent management of investments, integrating sustainability risks into investment decisions and carrying out active management of financial and non-financial risks, in order to maximize the risk-return ratio of the portfolios over a horizon of long term.

Section 2. Annual overview

- Discuss your organisation's progress during the reporting year on the responsible investment issue you consider most relevant or material to your organisation or its assets.
- Reflect on your performance with respect to your organisation's responsible investment objectives and targets during the reporting year. Details might include, for example, outlining your single most important achievement or describing your general progress on topics such as the following (where applicable):
 - refinement of ESG analysis and incorporation
 - stewardship activities with investees and/or with policymakers
 - collaborative engagements
 - attainment of responsible investment certifications and/or awards

On September 28, 2022, the Loreto Mutua Group's Sustainability Policy was approved by the Loreto Mutua Board of Directors. This policy defines the roles and responsibilities within the scope of sustainability and creates a sustainability committee called the "Sustainable Involvement and Investment Committee" that will report directly to the Investment, Risk and Sustainability Committee, delegated body of the Board Mutual Society Board of Directors. Throughout the year various policies of the Mutual Society's governance system have been modified to include consideration of sustainability risks. Among these policies are; remuneration policy, risk management policy, liquidity and concentration risk, underwriting and reserve risk, investment risk, operational risk, ORSA policy (risk self-assessment) and Statement of Investment Principles and ESG risks

On October 25, 2022, the Board of Directors approved the Policy for the Integration of Sustainability Risks in investment decisions at Grupo Loreto level.

This policy establishes the specific methodology for the integration of sustainability risks in the investment process of the different financial assets. Likewise, the control of said risks is established by the corresponding risk management units.

The measurement of sustainability risk as of December 31, 2022 for 40% of the LORETO MUTUA portfolio, the one in which active and daily management is carried out in liquid and public financial markets (fixed-income portfolio is excluded at maturity, alternative management, third-party investment funds and real estate). The most important conclusion is coverage, that is, 78% of this portfolio has a public rating on sustainability and the average score of these ratings on ESG issues is 69.82 on a scale of 100.

Section 3. Next steps

- What specific steps has your organisation outlined to advance your commitment to responsible investment in the next two years?

Active Stewardship using of the rights and position of ownership to influence the activity or behavior of investee companies , increase in the percentage of sustainable investments in the portfolios and measurements of the risks of the portfolios under ESG criteria

Describe why your organisation does not currently conduct stewardship and/or (proxy) voting.

Stewardship, excluding (proxy) voting
(C) Fixed income – active

For now we are not conducting stewardship in this asset class. The fixed income portfolio is a highly diversified portfolio, the percentage of debt in the portfolio per total issued by each company is not significant. For this reason, there is not enough relative weight to conduct stewardship and/or (proxy) voting.

(D) Fixed income – passive

For now we are not conducting stewardship in this asset class. The fixed income portfolio is a highly diversified portfolio, the percentage of debt in the portfolio per total issued by each company is not significant. For this reason, there is not enough relative weight to conduct stewardship and/or (proxy) voting.

(E) Private equity

In practice we do it but it is not included in our stewardship policy.

(F) Real estate

We are owner of the buildings that represent more than 95% of our real state investment. We do not conduct stewardship yet, it will be the next step.

(K) Other

Loreto Mutua stewardship policy is focus in equity. Little by little we will extend it to the rest of the assets

The impact of climate transition risk on the valuation of investments was calculated in 2022. Quantifying it by applying a set of methodologies and tools.

The 3 methodologies used to calculate the transition risk of the different types of assets were:

PACTA: free tool developed by the 2nd Investing Initiative recommended by EIOPA. Corporate bonds and shares of the sectors: electric power, oil and gas, coal and automotive.

CBES: Stress analysis test carried out by the Prudential Regulation Authority of the Bank of England. Corporate bonds and shares of the sectors: cement, steel and air transport.

CLIMAFIN: Methodology recommended by EIOPA for the analysis of climatic impacts on the risk of sovereign debt default. Sovereign bonds.

Has your organisation assessed the resilience of its investment strategy in different climate scenarios, including one in which the average temperature rise is held to below 2 degrees Celsius (preferably to 1.5 degrees Celsius) above pre-industrial levels?

- (A) Yes, using the Inevitable Policy Response Forecast Policy Scenario (FPS) or Required Policy Scenario (RPS)
- (B) Yes, using the One Earth Climate Model scenario
- (C) Yes, using the International Energy Agency (IEA) Net Zero scenario
- (D) Yes, using other scenarios**

Specify:

The impact of climate transition risk on the valuation of investments is quantified, applying a set of methodologies and tools. 3 methodologies are used to calculate the transition risk of the different types of assets:
 PACTA: free tool developed by the 2nd Investing Initiative recommended by EIOPA. Corporate bonds and shares of the sectors: electric power, oil and gas, coal and automotive.
 CBES: Stress analysis test carried out by the Prudential Regulation Authority of the Bank of England. Corporate bonds and shares of the sectors: cement, steel and air transport.
 CLIMAFIN: Methodology recommended by EIOPA for the analysis of climatic impacts on the risk of sovereign debt default. Sovereign bonds.

- (E) No, we have not assessed the resilience of our investment strategy in different climate scenarios, including one that holds temperature rise to below 2 degrees
